Ride the tide of documents

SAVE ON TIME AND POSTAGE!

Don't waste time on sending reports manually from Microsoft Dynamics NAV to your customers and other external relations. Continia Document Output automates this process, while also making it possible to design emails with exactly the information and design you want!

Quotes, Order Confirmations, Sales Invoices, Reminders, Financial Charge Memos, Account Statements, and much more can be sent in PDF format and attached to emails — in just a few clicks or fully automatically!

And if the low license fee isn't enough — Continia Document Output is also easy and fast to set up. Save on time and postage — contact your NAV partner today!

Ready, set...

Continia Document Output comes with a wide variety of email templates ready for use, each of which are linked to a NAV report and information on who is to receive them. All you need to do is customize the email to your own profile, and you're ready to go! The following ready-made email templates come standard:

- > Account Statement
(including attachments from the period)
- > Delivery Note
- > Credit Memo
- > Reminder
- > Financial Charge Memo
- > Sales Invoice
- > Quotes
- > Order Confirmation
- > Purchase Order
- > Tracking

(email service without report, but instead with a link to the carrier's website where you can track the delivery status)

All the reason you need!

Continia Document Output is a totally unique solution in that you don't have to make changes to reports in order to send them. This is why it's easier and cheaper to install, develop, and maintain Continia Document Output compared to many other solutions.

Total control over who receives what

It's easy to control who receives which documents for those you do business with.

Save on time and postage

With Continia Document Output, you can ensure that reports are sent via email as much as possible, allowing you to save big on packing and postage. Should certain recipients still wish to have their reports in paper form, these will automatically be sent to print out. Emailing and paper print-outs are handled at the same time and in the same process.
